Hi Rollie,

Thanks so much for the follow up to our phone calls. I look forward to your Dallas trip on July 28. Will there be a chance for us to get together? Can I meet you at the airfield? Would you like me to make arrangements with Jack Cook and Phil Chamberlain? Will it be possible for us to reach you by e-mail while you and Mrs. Zavada are on your trip?

I need to give your file a more thorough review. However, there is a correction that should be made. In 1963 I was a correspondent in the service department. I was not the supervisor until about 1984 after being away for 17 years. In 1966 I transferred to the consumer markets division. In 1982 I became the technical information specialist for the Southwestern Region KRD.

Walter Bent was the Service Department Supervisor in 1963.

Good flying to you. Dick Blair

Dick; Got home last nite. All flying was great. Had to penetrate a front going north out of Dallas - a little wet but not much turb. Will make up a report of our meeting. Would still like to locate samples of 1963 processed KII. Thanks again for your help.
Regards, Rollie

Hi,

It was nice to visit with you and meet your lovely wife. Glad you had a good flight back and that the weather was kind.

Thank you for the breakfast. That was very nice. I would like to make you some calling cards with a picture of your plane if you would like. Just send a shot of you plane and let me know the wording.

Best regards, Dick Blair

Hi Rollie,

This morning our Kodak group had coffee which I followed with lunch with Jack Cook. Jack thinks he may have an 8mm Kodachrome movie film which was processed in Dallas in 1963. He will check sometime this week and let me know. If he has one, he will get a clip bearing the edge print to you.

On the picture card offer there is no price. This is something I do for friends. I'll look forward to seeing a shot of your plane.

Best regards, Dick

Dick, Thanks for the picture-card offer. I'll put something together -
whats the price per 100??? Rollie

Hello Rollie,

Jack Cook gave me his "Kansas City, Mo. Easter 1963" 8mm Kodachrome movie roll. He asked I remove a clip for you from the end of the film. However, I do not have an 8mm projector so cannot tell if I might be removing a scene important to him. Also there may be some fog at the end making it necessary to take the clip from the body of the roll. Since I do not have an 8mm splicer, I would hate to make a cut and not be able to make a splice.

It might be best if I forward the entire film to you. By doing this you will be able to be certain to obtain helpful information while preserving Jack's pictures. I know he wants to return the film to his files. As you may know, he has a large family and the pictures mean a lot to him.

What do you think? Dick

Dick, Thanks to you and Jack. Please send the entire film. I will make Non-destructive photos of the identification and we won't have to worry about destroying any family memories. Jack can certify the photos and that should suffice. Thanks again, Rollie
