Dallas, Texas
November 25th, 1963

Mr. C. D. Jackson, Publisher
Life Magazine
c/o Time, Inc.
Rockefeller Center
New York, New York

Dear Mr. Jackson:

This confirms the fact that I originally took the exposed roll of 8 mm. film concerning the death of President John F. Kennedy on November 22nd, 1963, in Dallas, Texas, to Eastman Kodak for developing and processing. At that time I requested Eastman to make three (3) additional copies, but was advised, firstly, that they were not equipped to reproduce these locally and that it would have to be sent to Rochester, and, secondly, that Jamieson Film Co. here in Dallas was equipped to make copies, so long as the film was not split but remained in the form of 16 mm. roll. Consequently, I had Eastman Kodak in Dallas process and develop the original roll of film without splitting the same, took such processed and developed film to Jamieson Film Co., and had three (3) copies made therefrom.

The laboratory manager of Jamieson Film Co. gave me an affidavit concerning the making of the prints, the original of which is attached hereto and is self-explanatory.

I then took the three (3) copies made from the original back to Eastman Kodak for their processing and developing. I was present during the times when the film was processed at Eastman Kodak and at Jamieson Film Co. and did not at any time notice or see any circumstance that would indicate that additional copies or prints of such film were or could have been made. I did not and have not authorized either Eastman Kodak Company or Jamieson Film Co. or any one else to duplicate, reproduce or in any fashion copy any of such film or prints thereof.

I am also delivering the originals of the four affidavits I received from Eastman Kodak to you herewith.

Very truly yours,

Abraham Zapruder
